inclusion as interfaces
interface: infrastructure
support decisionmaking
documentation is hospitality

WELCOME

Key is under this mat
dreamwidth decision #1: speak openly
dreamwidth decision #2: community before code
everything around the code
interface: governance
incentives to bring a friend
outreach and blind review
recurse social center rules
no feigning surprise
no well-actuallys
no back-seat driving
no subtle -isms
codes of conduct
different rules for different spaces
interface: culture
( the secret is: everything is culture )
how do you organize knowledge?
general topics
European languages
literally every other human language
can you represent knowledge?
how do you allow peripheral participation?
how do you handle risk?
how might this look to someone else?
and in conclusion...
